Emendations: The order of staves in the source is the same as in this edition: no indication is given of the allocation of the treble and tenor parts. The counter part is notated in the treble clef an octave higher than given here.

The only indication of the text given in the source is the title 'Psalm ye 43d'. The version to be used is not specified: some tunes in the book specify that New Version texts are to be used, while no tunes specify the use of Old Version texts (possibly suggesting that if New Version is not specified, Old Version should be used).
